About DT Performance Cars:

DT Performance Cars is a family founded, Midlands-based specialist dealership offering one of the UK's most diverse selections of special vehicles, focusing on modern classics. We only buy cars we would personally own.

Our purpose-built, 8,000 sq. ft. showroom offers a clean, well-lit space for relaxed viewing of our stock for customers. Founded in 2013 by Daniel Tranter, DT Performance Cars initially served the trade by sourcing Porsche and prestige vehicles for local independents. In 2016, we began selling directly to the public from Dan's driveway at home and quickly outgrew our initial setup. By 2017, we purchased and moved into a larger industrial unit in Atherstone, which has since been transformed into an ideal space for showcasing up to 30 handpicked cars at any given time.

We're committed to providing a relaxed, personal experience and fostering long-term relationships with our customers - many of whom return car after car & see us as a friend in the motor trade!

We carefully source all our cars privately - we don't attend auctions - to ensure we only offer the best examples. Our Managing Director, Dan, is passionate about finding niche cars and other vehicles for our customers and also sources vehicles to order.

We handle all bookings by appointment only, to ensure a personal and high quality experience where customers can fully explore our showroom, meet the team, and ask any questions they may have.
